

**3 out of 4 persons with
HEPATITIS C
are baby boomers.**

Are you offering all baby boomers a hepatitis C test?

On January 1, 2014, the New York State Hepatitis C Testing Law went into effect. The law requires all persons born between 1945 and 1965 receiving care as an in patient of a hospital or in a primary care setting be offered a one-time hepatitis C screening test. For more information about the law, including free patient and provider materials, go to health.ny.gov/hepatitis.
